

Wet loose in northern bridgers

Fairy Lake

Bridger Range

4/18/2025

Code

WL-N-R1-D1

Latitude

45.90430

Longitude

-110.95800

Notes

Meant to submit this yesterday (4/18), saw this one wet loose [slide](#) that naturally started off some rocks. Decent size by the bottom. Other than that, just some spiff. Surprisingly didn't see any big wind slabs [trigger](#), despite the widespread wind effect in the northern Bridger's. Lots of wind scour on southerly aspects. Northern aspects had [wind loading](#).
